

# Pallet Truck

Capacity 1.5 t | Series 1133

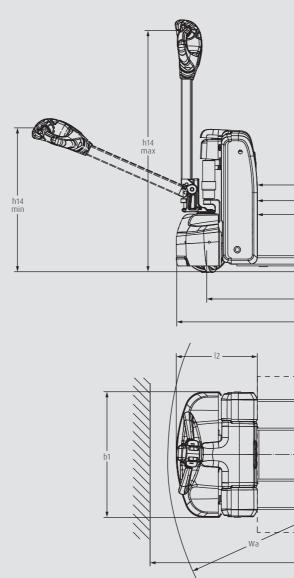

### Manoeuvrability in the tightest of spaces

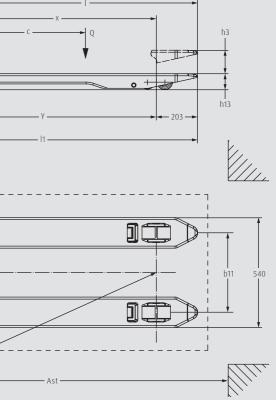

- ightarrow Compact chassis and good maneuverability for transports in narrow aisles
- ightarrow Powered traction driving and lifting performance for loads of up to 1.5 t without effort
- ightarrow Operator protection through long, low mounted tiller and low chassis
- ightarrow 180 kg light weight truck can be used anywhere, even on mezzanines
- ightarrow Lithium-ION battery allows intermediate charging and increases operating time

## TECHNICAL DATA (According to VDI 2198)

|                 | 1.1   | Manufacturer                                       |                            | Linde                 |

## **CHARACTERISTICS**

Long low mounted tiller ensures safety distance

All controls ergonomically integrated in the Linde tiller head

Easy plug and play Li-ION battery

Intuitive multifunctional display

#### Safety

- $\rightarrow$  Long, low mounted tiller guarantees sufficient safety distance between operator and truck
- ightarrow Low chassis prevents the driver's feet from getting under the truck
- $\rightarrow$  Effective parking brake to hold the truck safely on slopes or on lorry tail lifts

#### Ergonomics

- $\rightarrow$  Ergonomic tiller head ensures precise and comfortable handling
- $\rightarrow$  Creep speed function with vertical tiller arm improves maneuverability in confined spaces
- $\rightarrow$  Built-in charger enables opportunity charging at any convenient power point for optimum uptime
- $\rightarrow$  Charging time of only 2.5 hours

#### Handling

- $\rightarrow$  Compact chassis (L2: length including fork back of only 400 mm) ensures maneuverability
- $\rightarrow$  Powered traction driving and lifting capacity facilitate transport of loads up to 1.5 tons
- ightarrow 48 V 20 Ah or optional 30 Ah lithium-ion battery increases working time up to 3 hours
- ightarrow 180 kg light weight truck can even be used on mezzanines

#### Service

- $\rightarrow$  DC motor extends maintenance intervals and reduces service costs
- $\rightarrow$  Multifunction display informs operator about truck status
- $\rightarrow$  Battery management system ensures the quality and durability of the battery
- $\rightarrow$  Service technicians can transfer and read out data to notebook via CAN bus connection
- $\rightarrow$  All components are easily accessible

Subject to modification in the interest of progress. Illustrations and technical details could include options and not binding for actual constructions. All dimensions subject to usual tolerances.

Linde Material Handling
